

# C.H.I.M.P.

VMI from Allied Wire and Cable

Customer Hassle-Free Inventory Management Program

## What is C.H.I.M.P.?

- C.H.I.M.P. is a Vendor Managed Inventory (VMI) program designed to automate ordering of frequently used products. It is a web-based program that automatically reorders products as you use them.

## What does C.H.I.M.P. Stand For?

- Customer Hassle-free Inventory Management Program

## Benefits of C.H.I.M.P.:

- Decrease in stock-outages
- Improved inventory turnaround time
- Improvement in delivery performance
- Full Inventory Visibility: Search by parts, orders, location, ownership
- Highlight Inventory Issues: Spot part shortages, late orders, and other inconsistencies

## How C.H.I.M.P. Works:

- AWC enters the order, and ships the items to you
- AWC runs a daily process to transfer shipped items into C.H.I.M.P.
- When you receive the shipment, you log in and print the order from C.H.I.M.P.
- Scan the barcode on the sheet and each spool
- When you use a spool, scan it again to remove it from C.H.I.M.P.
- When your stock falls below a certain level, C.H.I.M.P. tells us, and we ship out more!

## Getting Started:

- You will work with your account manager to determine your usage of each item and together you will set a safety stock level
- We will provide you with a computer, monitor, scan gun and printer... all you need is an internet connection and power outlet

## Additional Information:

- Billed bi-weekly, reconciled monthly
- Customized Reporting
- Annual Usage
- Current Stock
- Trends
- Almost anything you can dream up!

## It's That Easy!

**Let C.H.I.M.P. from Allied Wire & Cable manage your wire and cable inventory, so you don't have to!**
