AWC Breaks Ground for New PA Facility

PA – On August 29, 2007, Allied Wire and Cable participated in a ceremonial groundbreaking for their new facility in Collegeville, Pennsylvania. The event involved PA Congressman Jim Gerlach and Representative Bob Mensch, along with other members of the immediate community.

Allied Wire and Cable's International Headquarters is currently located in Phoenixville, PA, but thanks to the new construction AWC plans to relocate into the Collegeville facility by the end of 2007. The project will see construction of an 82,000-square-foot office, warehouse and production area.

“When you consider that we just moved into our current building less than six years ago, the move is truly remarkable,” said Tim Flynn, President of Allied Wire and Cable. “The incredible growth we have experienced at Allied Wire is only possible due to the hard work of our employees and the support of our customers.”

The new building will be located at 101 Kestrel Drive in the Iron Bridge Corporate Center.
