

FOR IMMEDIATE RELEASE

AWC OPENS NEW FACILITY IN ELKHORN, WI

Elkhorn, WI - Allied Wire & Cable proudly announces the addition of a stocking facility in Elkhorn, Wisconsin. AWC owns warehouses and offices across the United States, but adding Wisconsin to the list means important changes for Allied Wire customers.

With the additional stocking facility, Allied Wire and Cable expects shipping to its customer base in the Midwestern and Western states will be faster and more convenient than ever before.

“The facility enables quicker lead times and better service,” said Debby Hanisch, an account representative at the Wisconsin office. “We can improve our assistance to customers that are in the Wisconsin area, while simultaneously help all of the Allied offices.”

The extra stocking room frees up space for more products at the international headquarters in Pennsylvania and other Allied offices. All locations, including Wisconsin, have added 1283, 1284 Extra Flexible MTW/TEW (Bare Copper) to their inventory. The Flex MTW is a great addition to the product lines Allied Wire and Cable currently stocks. The wire has a variety of applications, meets UL requirements and will be stocked in large reels.

“Everyone at Allied Wire & Cable is thrilled about the new developments,” says Hans Nelson, manager of the Wisconsin branch. “At Allied, we believe the customer comes first and we strive to always make that evident. The stocking facility and new product line help us offer the best possible service to every customer.”

The new office and warehouse is located at 515 E. Centralia Street in Elkhorn, WI. The Allied representatives at Wisconsin can be reached at 1-800-535-3271.

About Allied Wire & Cable

Founded in 1988, Allied Wire & Cable is now one of the largest independent value-added manufacturer and distributor of wire and cable products in the country. AWC provides the aerospace, medical, automotive, transportation, computer, telecommunications, and shipbuilding industries, as well as the government, military, distributors, and manufacturers with all their wire, cable, tubing and cable accessory needs. AWC's corporate headquarters is located in Phoenixville, PA, with additional offices in New England, Florida, Tennessee, South Carolina, and Wisconsin, as well as warehouses across the US.
